PART 1- FINANCIAL INFORMATION

Item 1. Financial Statements

Please refer to the unaudited interim financial statement of the Liberty Flour Mills, Inc. (the "Company) and its subsidiaries for the three (3) months ended March 31, 2018 which is attached hereto as Annex "A" and which is hereby incorporated by reference to form an integral part of the Report. Likewise, attached as Annex "B" is the Company's Statement of Changes in Stockholder's Equity for the three (3) months ended March 31, 2018 and as compared to same period for the year 2017, and the Company's basis for the computation of Basic Earnings per share.

The interim financial statements are prepared in compliance with Philippine Financial Reporting Standards (PFRS) in accordance with the Securities Regulations Code.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Due to very stiff competition, the operations for three-month period ended 31 March 2018 resulted in a net income of PhP4.60 million, a decrease by 75% from previous year's same period of PhP18.13million. In terms of sales there was a decrease of 6% in the sales volume of flour bags sold in the first quarter of 2018 which resulted to a decrease in revenue by 3% from the previous year's same period operation. Cost of Sales had increased by 10% compared to same period last year due to increase in prices of imported wheat grains coupled with peso depreciation. Dividend income on shares of stocks and in debt instruments and interest income on quoted securities are on the same level last year.

For the quarter ended 31 March 2018, total gross income amounted to PhP19.60 million, which is 42% lower from the previous year's same period operation which made gross profit amount to Php33.98million.

Other operating income represents rental income which had an aggregate amount of Php30.18 million for the first three-month period of 2018 higher by 20% compared to previous year's same period of PhP25.20 million. Increase is due to higher tenants' occupancy rates.

Operating expenses for the three-month period of 2018 amounted Php53.05million, 5% higher than the previous year's same period operating expense of PhP50.59million. Operating expenses consists of selling and administrative expenses such as salaries and wages, employee's welfare, depreciation, outside services, taxes, insurance, communications, office supplies, transportations, repairs, maintenance, interest and other expenses.

For the three-month period of 2018, the Company had an operating loss of PhP3.28million versus previous year's same period operating income of Php8.6 million. The operating loss is primarily due to the above stated reasons.

Other income and charges, net, for the three-month period of 2018 amounted to Php10.05million, which is 12% lower than last year's same period amounting to Php11.44. The account consists of net interest income and expense, dividend income and net miscellaneous income from scrap sales. During the period, the Company earned dividend income from various investments. As for the

quarter ended, the Company has trust receipt balance amounting to Php25.36million as compared to last year's same period of Php53.52million.

The total combined assets amounted to Php3.6 billion as of 31 March 2018 which is lower by 2% while total liabilities amounted to Php902 million which is lower by 5%, mainly due to nil other liabilities and lower liability for retirement fund, from balances as of 31 December 2017.

The Company has no knowledge of any trends, events or uncertainties which are reasonably expected to have a material impact on the net sales or revenues of the Company. There are no seasonal aspects which had a material effect on the Company's financial condition or results of operation.

Further discussion of material changes in amount of accounts with 5.0% or more change:

Accounts Receivable – The decrease in account is due to higher collections made as of the first quarter ended which is also reflected in the Statement of Cash Flow attached herein.

Inventories – The increase in account is due to higher importation of raw materials made in the first quarter ended which is also reflected in the Statement of Cash Flow attached herein.

Financial Assets at FVPL – There were no significant additions or disposals made during the first quarter of 2018. The decrease of 6% in the balance of the investments in financial assets at FVPL is attributable to the decrease in the market value of the investments.

Prepaid expenses and other current assets – The increase of balance is due to the increase in the prepaid import charges and acquisition of insurance and various prepayments for the year 2018.

Accounts payable – The increase is due to balance of the Company's Trust Receipts incurred during the year 2018.

Income tax payable – The decrease is primarily attributable to the decrease in the Net Income for the first quarter ended as compared to 2017 balance.

Bank Loans – The significant increase was due to loans made by the subsidiary to finance other priority projects.

Retained earnings – Balance as of March 31, 2018 is basically on the same level as of previous period last year.

Performance Indicators

The Company and its subsidiary determine their performance on the following five (5) key performances indicators:

- Selling Price, Volume and Revenue Growth

These indicate external performance of the Company in relation to the movements of consumer demand and the competitors' action to market behavior. These also express market acceptability and room for development and innovation. These are being monitored and compared as bases for further study and development.

During the three-month period ended 31 March 2018, there was 3% decrease in revenue as compared to previous year's same period performance. The decrease is attributed to the decrease of 6% in the sales volume of the Company's products specifically bakery flour. However, there was a huge increase in the Company's rental income by 20%.

- Cost Contribution

This measures the amount of supply and cost-efficiency of the applicable products of the Company. It shows the trend of supplies' cost particularly in imported raw materials where there are foreign exchange exposures. Cost are analyzed regularly pursuant to cost reduction and efficiency measures.

During the three-month ended 31 March 2018, there was an increase of 10% in cost of sales over the previous year's same period performance due to increase in prices of imported wheat grains coupled with peso deterioration.

- Gross Profit Contribution

Review of sales less cost is done on a regular basis to check if targets are being met. This measures the profitability within the bounds of cost and demand. Like other indicators, this is reviewed on a regular basis for proper action and consideration.

During the three-month ended 31 March 2018, the Company generated gross profit of 14%. There was a decrease of 10% in gross profit as compared in the prior year's same period performance. The decrease is directly attributable to the substantial increase in cost of sales coupled with decrease in revenue as discussed in item 1.

- Operating margin

This shows the result after operation expenses have been deducted. Operating expenses are examined, checked and traced for major expenses. These are being analyzed and compared to budget and expenses incurred in previous years to ensure prudence and discipline in spending behind marketing and selling activities.

During the three-month ended 31 March 2018, there was an increase in operating expenses by 5% over the previous year's same period performance. Operating loss was incurred this quarter as a result of increases in cost of sales and operating expenses coupled with lower sales than previous year.

- **Plant Capacity Utilization**

This determines total usage of the plant capacity, Full utilization produces better yield thus better margin. Standard rates for the plants were set and monthly utilization is determined to property equate and carefully assess the differences.

Like in the past years, the Company continued to enjoy a strong cash position all throughout in 2017 and as of the quarter ended 31 March 2018 with a current ratio at 12.18:1. The working capital requirement of the Company to carry its business is entirely generated internally.

There are no events that will trigger direct or contingent financial obligations that are material to the Company, including any default or acceleration of an obligation. There were also no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Company with unconsolidated entities or other persons created during the reporting period.

MARKET PRICE

The market price of the Company's common shares closed at PhP52.55 on 31 March 2018. For the Company's high and low prices for the first quarter of 2018, please see table below:

Stock	Quarter	High	Low
LFM	1	52.55	52.55

PART 11 – FINANCIAL DISCLOSURES

Financial Instruments and Financial Risk Disclosure

The Group's financial instruments consist of cash and cash equivalents, financial assets at FVPL and AFS financial assets. The main purpose of these financial instrument is to fund the group's operations. The Group has various other financial assets and liabilities such as trade receivables, trade payables and accrued expenses and other liabilities. The main risk arising from the use of these financial instruments are credit risk, equity price risk, foreign currency risk and liquidity risk.

The main risk arising from the Group's financial instruments are credit risk and liquidity risk. The Group's exposure to foreign currency risk is minimal as this only relates to the Group's foreign currency-denominated cash in banks. The BOD reviews and approves policies for managing each of these risks.

a. Credit Risk

This represent the loss that the Group would incur if counterparty failed to perform under its contractual obligations. The Group has established controls and procedures in its credit policy to determine and monitor the credit worthiness of customers and counterparties. The Group is operating under a sound credit-granting process over its distributors. Credit monitoring process involves a weekly check over collections based on a benchmark.

The Group trade receivables is concentrated with its three distributors which account for 99% of the total trade receivables as of March 31, 2018. The Group has been transacting business with these distributors for a long time and has not encountered any credit issue with them. With respect to credit risk arising from other financial assets of the Group which comprise of cash equivalents, financial assets at FVPL and AFS financial assets, The Group's exposure to credit arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. There are no collaterals or other credit enhancement held over these assets.

b. Market Risk

Market risk is the risk that the fair values of equities decrease as a result of changes in the levels of equity indices and the value of individual stocks.

The fair value of equity held as AFS as of March 31, 2018 amounted to P14.7 million.

c. Foreign Currency Risk

This risk describes the impact of changes in foreign exchange rates on the consolidated balance sheet and consolidated statement of income items denominated in foreign currencies.

The Group's foreign currency-denominated financial assets and liabilities which are all in US dollar (\$) as of March 31, follows:

	2018	2017
Cash in bank	\$1,686	\$1,895
Total US dollar-denominated assets	\$1,686	\$1,895

The exchange rate per \$1.00 to Philippine peso is P52.11 and P49.70 respectively.

d. Liquidity Risk

Liquidity risk is the risk that the Group will be unable to pay its obligations when they fall due under normal and stress circumstances. The Group manages risk by maintaining a balance between continuity of funding and flexibility. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements. Management closely monitors the Group's future and contingent obligations and sets up required cash reserves as necessary in accordance with internal policies.

There are no Company's investments in foreign securities.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

a. Financial assets at FVPL

The fair value of the quoted shares of stock is based on quoted market price.

b. AFS financial assets

The fair value of the quoted debt instruments and equities is based on quoted market price. Unquoted shares of stock are carried and presented at cost less impairment since their values cannot be reliably determined.

c. Deposits on long-term leases

The fair value of deposits on long-term leases is based on the present value of expected future cash flows discounted at the applicable rates for similar types of financial instruments.

d. Other financial assets and financial liabilities

Due to the short-term nature of other financial assets and financial liabilities, the fair value of cash and cash equivalents, receivables, liabilities under trust receipts, accounts payable and accrued expenses and other current liabilities approximate the carrying amount as of balance sheet.

PART III - OTHER INFORMATION

All other information which requires disclosure under the full Disclosure Rules of the Securities and Exchange Commission has been previously filed by the Company under SEC Form 17-C

SIGNATURE

Pursuant to the requirements of the Securities Regulation Code, the Company has duly caused this report to be signed on its behalf by the undersigned there unto duly authorized.

LIBERTY FLOUR MILLS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
AS OF MARCH 31, 2018

1. Basis of Financial Statement Preparation

The consolidated financial statements were prepared on the historical cost basis, except for the financial assets at fair value through profit and loss (FVPL) and the available-for-sale (AFS) financial assets which were measured at fair value. The consolidated financial statements are presented in Philippine peso (Peso), which is the Parent Company's functional and presentation currency and rounded to the nearest Peso except as otherwise indicated.

Statement of Compliance

The consolidated financial statements of the Group are prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as of March 31, 2018.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company. All intra-group balances, transactions, unrealized gains and losses, resulting from intra group transactions and dividends are eliminated in full.

2. Significant Accounting Policies

Changes in Accounting Policies and Disclosures

The Group applied for the first time certain pronouncements, which are effective for annual periods beginning on or after January 1, 2017.

- Amendments to PFRS 12, *Disclosure of Interests in Other Entities, Clarification of the Scope of the Standard* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)

The amendments clarify that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

- Amendments to Philippine Accounting Standards (PAS) 7, *Statement of Cash Flows, Disclosure Initiative*

The amendments require entities to provide disclosure of changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses).

- Amendments to PAS 12, *Income Taxes, Recognition of Deferred Tax Assets for Unrealized Losses*

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions upon the reversal of the deductible temporary difference related to unrealized losses. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

New Accounting Standards, Amendments to Existing Standards

Pronouncements issued but not yet effective are listed below. The Company intends to adopt the following pronouncements when they become effective. Adoption of these pronouncements is not expected to have a significant impact on the Group's consolidated financial statements, unless otherwise indicated.

Effective beginning on or after January 1, 2018

- PFRS 9, *Financial Instruments*

PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. Retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

- PFRS 15, *Revenue from Contracts with Customers*

PFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PFRS 15 provide a more structured approach to measuring and recognizing revenue.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

- Amendments to PFRS 4, *Insurance Contracts*, *Applying PFRS 9, Financial Instruments, with PFRS 4*
- Amendments to PAS 28, *Measuring an Associate or Joint Venture at Fair Value* (Part of *Annual Improvements to PFRSs 2014 - 2016 Cycle*)
- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*

The amendments to PFRS 9 allow debt instruments with negative compensation prepayment features to be measured at amortized cost or fair value through other comprehensive income. An entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2019. Earlier application is permitted.

- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today's accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*

The amendments to PAS 28 clarify that entities should account for long-term interests in an associate or joint venture to which the equity method is not applied using PFRS 9. An entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2019. Earlier application is permitted.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12 and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

3. Others

1. The same accounting policies and methods of computation are followed in the interim financial statements as of March 31, 2018 as compared with the audited financial statements as of December 31, 2017.
2. The business operation of the company for the interim period is continuous, there is no cycle and it is not seasonal.
3. There are no unusual items that affected assets, liabilities, equity and cash flows.
4. There are no changes in estimates of amounts reported in prior financial years.
5. There are no material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.
6. There are no changes in the composition of this issuer during the interim period. There are no business combinations, no acquisition or disposal of subsidiaries and long term investments, no restructuring and no discontinuing operations.
7. There are no contingent liabilities and contingent assets.
